

Fox Day **face paint fun!**

Get ready

Follow these fun and easy steps to create your very own foxy look with your family. Remember, always ask an adult to supervise or help.

Be bold and have fun going wild with your design.

What you'll need:

Face paints
(orange, white, black - and any extras you love)

Soft brushes or sponges

Mirror

Wet wipes or
face cleanser (for little
clean-ups!)

Let's get foxy

1. Set the scene

Get your paints and mirror ready.

2. Base coat of foxiness

Paint your cheeks, forehead, and chin bright orange. Leave space around your eyes and mouth for white!

3. Add the white details

Paint around your eyes to make them stand out. Add white to your cheeks and chin for that perfect fox muzzle.

4. Go wild with black paint

Dot a little black fox nose right at the tip of yours. Draw some whiskers coming out from your cheeks. Optional: Add some foxy eyebrows for flair.

5. Finishing touches (optional)

Add glitter, sparkles, or even stick-on gems! Paint orange ears on your forehead or make cardboard ears for a headband!

6. Strike a pose

Show off your amazing fox face to friends and family. Ask your family to snap a photo and share it on social media, tagging us in to join in the Fox Day fun.

7. Bonus fun: make a fox pack

Grab your friends and create a whole pack of fantastic foxes.

Remember: Every fantastic fox helps spread the love for our wild woodland friends.
